Antioch to Have Aviation Field

Local Men Assembling Airplane Here and Will Learn to Fly.

Antioch is soon to have an aviation field. The local pioneers of the air are Vincent Dupre and S. Boyer Nelson, who are the owners of a new Sopwith-Campbell scout plane which is being assembled here and will be ready for the air in a few days after the motor arrives and is placed in the machine. The airplane, which is of British manufacture, will carry two passengers, has a 165 horse-power Gnome rotary motor and will develop a speed of 150 miles per hour.

Pilot Has Thrilling Career.

Captain Curtis H. Hadlich, of Chicago has been selected as pilot and instructor. Hadlich is putting the plane in shape and hopes to have it ready for the air in a very short time.

Captain Hadlich is a ex-army pilot who has been flying since 1911. For four years he was an aviator in South America and he received considerable training in France, where he served during the World war and is credited with bringing down twelve enemy planes. Hadlich was himself shot down during combat, but managed to escape from over the enemy's country in a badly disabled and flaming plane, being seriously wounded in this combat. For two years Hadlich was government air mail pilot and has served in all parts of the United States. He has also appeared as a bird-man and stunt flyer in movies, his greatest picture being "The Great Air Mail Robbery," production familiar to all movie fans. Hadlich was the first man to fly across the Gulf of Mexico in 1911.

Howard Johnson, an experienced flyer, of Racine, Wis., is assisting to assemble the plane.

Both Mr. Nelson and Mr. Dupre have handled the controls of an airplane, and that they will be competent flyers in a very short time is the opinion of their instructors. Their plane will be used for scouting work, instruction of students, advertising, stunt flying, night and cross-country flights.

Rev. A. M. Krahls Is Conference Choice

Rev. A. M. Krahls, former pastor of Palatine Methodist church, is the conference choice for the Antioch church for the ensuing year. It was announced following the 87th Rock River conference held at Freeport last week.

Rev. E. L. Stanton, after a three year pastorate here, goes to Glenview.

Other conference appointees were: Lake Villa, R. J. McKelvey; Fox Lake and Ingleside, C. W. Tompkins; Libertyville, John DeLong; Grayslake, N. S. Nye.

Registration days for the coming election in November will be Tuesday, Oct. 12, and Oct. 26. Register at your polling place if you did not vote at the last general election two years ago. If you voted in 1924 your name is on the polling list now. Oct. 12th from 8 a. m. until 3 p. m. Oct. 26th from 8 a. m. until 4 p. m.

AS FIRST EXPERIENCE AS GRAND JUROR

After being exempt from jury service for many years, on account of his profession as newspaper publisher, former Editor John L. Horan was called for grand jury duty at Waukegan this week. The jury was adjourned Wednesday after disposing of thirty cases in which twenty-eight indictments were returned.

It's the guess of John's friends that he made a very capable juror.

A miscellaneous shower was given in honor of Miss Augusta Hucker on September 29, by her five hundred club at the home of Mrs. Lewis Burke. Decorations were in yellow and white.

Tarbell to Head Isaak Waltons

Officers of Local Organization Chosen Friday Night.

S. E. Tarbell, who has been temporary president of the local Isaak Walton League since its organization a few months ago, was selected to serve as president for the ensuing year at a meeting of the members at the village hall last Friday night. Other officers elected were: R. L. Van Patten, vice-president, Clarence Shultz, treasurer, L. D. Powers, secretary.

The above named officers will also serve as directors, three more to be elected to comprise a board of seven members.

The Isaak Waltons are to cooperate with the C. C. & M. association to improve conditions about the lakes. It was stated by members following the meeting Friday night. The membership of the league is growing rapidly. Regular monthly meetings are to be held on the last Thursday night of each month.

Conservancy District Trustees Levy Tax

Officers Selected and Attorney appointed at Meeting of Board, September 26.

Appointment of Henry Homstead, St. Charles lawyer, as attorney for the recently voted Fox river conservancy district, selection of officers for that body for the ensuing year and the passing of an ordinance making a tax levy to 34 of one mill for current expenses for next eighteen months, was the principal business transacted at the first meeting of the newly appointed trustees who met at Geneva Tuesday of last week, at which time many preliminary plans were discussed.

The officers for the current term are: W. H. Blencoe, of Geneva, chairman, David E. McWhorter, Yorkville, secretary, the three other trustees being Edward C. Porter, Algonquin, Robert Knapp, Sheridan, and J. C. James, Antioch.

Geneva was made the official location of the office of the board of trustees and meetings are to be held the last Thursday of each month at 10 a. m.

The purpose of the act under which the Board will operate is to clean and keep clean the Fox river and its feeders including practically all of the lakes in Lake county.

In its territory the Fox river conservancy district includes Antioch, McHenry, Algonquin, Fox Lake, Grayslake, Cary, Carpentersville, Dundee, South Elgin, Youngsdale, St. Charles, Geneva, Batavia, Moseheart, North Aurora, Oswego, Bristol, Yorkville, Millbrook, Millington, Sheridan, Norway, Wedron and Dayton, and all land along the Fox river, from the Wisconsin line to the mouth of the Fox river.

At the next meeting the Board probably will appoint a consulting engineer and possible an inspector to make a general survey of the territory as to sanitary conditions and to ascertain what measures ought to be taken and what ordinances necessary to put in operation the intent and purposes of the law.

Members of the Board have stated that they seek the co-operation of all the people in the territory and any helpful suggestions will be welcomed.

J. C. James, Antioch's trustee, will serve for the next four years.

LAKE VILLA FREIGHT CAR

BANDITS STILL AT LARGE

Continue Search for Robbers Who Shot it Out With Special Agents Escaping under cover of darkness after shooting it out with special agents of the Soo Line, the three freight car looters, who were caught in the act of robbing cars at Lake Villa on Tuesday night of last week are still at large. One of the thieves is believed to have been wounded. No clues have been found as to the identity of the robbers.

Antioch Teams Win Double Victory

Light Weights and Heavies Win Over McHenry in Opener.

Antioch Township High School dedicated its new football field with a double victory over McHenry, the lightweight team having an easy time in winning up a 29 to 0 score while the heavies had to work harder to defeat the McHenry heavies 27 to 0.

The heavies went after the game strong in the first quarter and scored three touchdowns before McHenry could get set on their defense. Nixon scored the first touchdown on a dive thru center and a nice run for about 30 yards. He also scored the second touchdown on a sweeping end run with perfect interference. The third touchdown came as the result of a long pass to Bernolito which took the ball to the 1 yard line and from there Schwenk took it across on a line plunge.

The McHenry defense started to function in the second quarter and they held Antioch scoreless the second and third quarter altho the Antioch defense kept McHenry from getting within scoring distance all thru the game.

In the last quarter Antioch carried the ball within scoring distance on straight line plunges and Shun-nelson carried it over for the final touchdown. Spicer was successful on all of his kicks for points with the exception of the last one making the final score 27 to 0.

Capt. Morley, Thompson and Wilson played a good game in the line while in the back field Nixon, Schwenk and Simpson showed up the best. Gillett and Steninger played a hard game for the short time they were in the battle.

For the lightweights Michell, Stranetz, Murrie, Fisher and Alvers played a hard game. Michell and Alvers were always good for long gains when they carried the ball while the others mentioned were strong on defense.

The Antioch lights play at Libertyville this week on Friday while the heavies journey to Waukegan on Saturday for their hardest game of the season.

BANDITS HOLDUP KENOSHA BANK

Two Armed Men Escaped With \$12,000 From Commercial Exchange Bank.

One of the most daring holdups in the history of Kenosha was staged shortly after the noon hour Tuesday when two armed bandits robbed the Kenosha Exchange Bank and escaped with about \$12,000 in cash.

Cashier F. D. Williams and H. McFadden, teller were the only bank employees on duty when the two men drew up in front of the bank, which is located in the heart of the city. The bandits leisurely stepped from their Packard car and entered the place with drawn guns, commanding the bank employees to "Throw 'em up." After locking Williams and McFadden in a closet at the rear of the bank, the cash was quickly scooped into a small leather bag and the men escaped.

A posse of four men in a high-powered car followed the bandits in the direction of Chicago but no trace of them has been found.

FIREMEN TO GIVE ARMISTICE DANCE

Antioch Fire-Fighters Announce Big Hop for Nov. 11.

The Antioch Volunteer Fire Department has announced a dance for the evening of Armistice day to be given in the large garage building of the Antioch Sales and Service Co. This announcement is received with much pleasure by those who have attended dances given on previous occasions by the local firemen who have been voted first class entertainers.

A full band will be engaged to furnish music for the large crowd expected to attend.

Local Boys and Girls Win Many Awards

Antioch Shines in Poultry Club Exhibition at Waukegan Exposition

Exhibitors of poultry from Antioch vicinity fared extremely well at the Waukegan Exposition of Progress last week. Against the keenest kind of competition in the poultry division of the big show which overshadowed the rest of the displays, local exhibitors won dozens of prizes offered for the best specimens and pens of the feathered tribe. Following are some of the ribbon winners from this vicinity:

Black Jersey Giants—pens, first James Runyard, Antioch.

Silver laced Wyandottes—second, Harry Johnson, Antioch; third, Johanna Bonna, Grayslake.

Anconas—pens, first, second and third; and pullets, first, second and third awards to Philip Simpson, Lake Villa.

Rhode Island Reds, Rose Comb—pens, first, Elvin Keulman, Antioch. Pullets—second, Elvin Keulman, Antioch; third, Lillian Bartlett, Antioch.

Barred Plymouth Rocks—pens, first, Elmer Barthel, Antioch, second Harold Kennedy, Antioch.

Pullets—first, Elmer Barthel, Antioch; second, Harold Kennedy, Antioch; third, Norman Barthel, Antioch, second, Richard Kennedy, Antioch.

White Wyandottes—pens, second, Homer Edwards, Antioch.

White Langshans—first award for pens and firsts, second, and third awards for pullets went to Ruth Nelson, of Antioch.

Cornish games—first award for pens and first, second and third prizes for pullets went to Margaret Wilson of Antioch.

Local School Wins

The Antioch Township high school was given first prize and the Warren township high second prize in the agriculture exhibits by schools of the county, these being the only schools of the county to compete for the honors. The Antioch group was headed by C. L. Kutil, instructor in agriculture at the local school. Both instructor and students deserve great credit for the splendid showing made.

Annual Show Urged.

Notwithstanding unfavorable weather conditions the Exposition was a great success, and it has been suggested and urged by many that the show become an annual affair.

Letters of Appreciation.

Letters of appreciation were sent yesterday by the Chamber of Commerce to all exhibitors at the Business Exposition and Farm Products Fair.

It seems a unanimous verdict that the second annual event was a real business stimulus and there is a general demand that it be had next year on a much larger scale.

The Farm Bureau would like to see an early announcement of another Exposition so as to permit them nearly a year to interest all farming interests.

Fair Idea Spreads

If the Exposition were enlarged to County Fair proportions—with the exception of horse racing—a very much larger space would be necessary—almost three times the space occupied this year.

The expense by the Chamber of Commerce, taken from the proceeds of the proceeds of the Exposition, was about seven hundred dollars. The Chamber of Commerce loaned five hundred dollars to the Farm Bureau for use by the 4-H Clubs by which pure bred eggs for hatching purposes could be purchased. This organization, the first ever to offer assistance to the agricultural interests of Lake County have again signified their willingness to do so.

To go along hand in hand with the Farm Bureau has been a regular part of the Chamber of Commerce program since 1925. That the desires of both organizations are harmoniously working out needs only last week's Exposition to prove.

Temperance Union Meets This Week

Thirty-first Annual Convention at Waukegan Thursday and Friday.

The Lake County Woman's Christian Temperance Union will assemble today at 9:30 o'clock at the Y. M. C. A. building in Waukegan for the 31st annual convention of that body. Free luncheon will be served at noon and there will be programs this afternoon and evening. The sessions will continue all day Friday and at eight p. m. Friday evening a pagesant, "Commander in Chief," will be presented by the young people's branch of the Woman's Christian Temperance Union at the Parish house. There will be no admission charges but an offering will be taken.

T. E. Haddican Dies at Daughter's Home

Aged Man Was Long a Resident of Bristol—Four Children Survive.

Thomas E. Haddican, 77, long a resident of Bristol, died Sept. 22, at the home of his daughter, Mrs. Frank Rompeky, Kenosha, following an illness of about four weeks.

Mr. Haddican was quite well known in this locality, as he was a resident of Bristol for many years. About a year ago he sold his farm and went to Kenosha to make his home with his daughter. Deceased is survived by four children, two daughters and two sons: Mrs. Catherine Markin, of Jerome, Arizona, Mrs. Rompeky, Kenosha, Thomas, South Milwaukee, and William of Antioch.

Funeral services were held at St. Mark's church, Kenosha, and interment was in St. Mary's cemetery, Bristol.

Poultry And Swine Specialist to Be Here Friday Night

Farmers and poultry raisers in this section who have been losing chickens and pigs, are going to get an opportunity to find out where the trouble is, for arrangements have been made to have Dr. W. C. Graham, a member of the Research and Clinic Department of the George H. Lee Company of Omaha, Nebraska, and a Specialist on poultry and swine troubles here on Friday, Oct. 8, to conduct a post-mortem demonstration clinic on poultry and hogs.

This meeting will be held in the Antioch High School at 8 p. m. This is part of the campaign being waged to assist farmers and poultry raisers in reducing the tremendous loss on farms every year among these two branches of live stock. Dr. Graham's work is highly endorsed by A. D. Smith, Chief State Poultryman, of Illinois and other leading poultrymen of the State, such as Judge Tarbell, of Havana, Judge Scott, of Peoria, Judge Hale, of Glenelg, Lyle Funk, President of the Illinois State Poultry Assn., and many others.

Everyone who has been losing any chickens or pigs, or who has chickens or pigs that are not doing well, is invited to bring in specimens for examination and receive free instructions on the cause, treatment, and prevention of the trouble. Plenty of specimens are needed to bring out the full value of this demonstration, and it is hoped that every farmer in this section will take advantage of this opportunity to learn some real facts about disease prevention. Every poultry and hog raiser should hear this man.

This clinic demonstration is really a short course school, teaching farmers how to correctly diagnose, treat, and prevent disease and other troubles which are common causes of much loss among poultry and swine.

This Clinic is sponsored by the Agriculture Class and King's Drug Store.

Mrs. Elmer Rentner and Mrs. Runyard were Kenosha shoppers on Thursday.

Parents, Teachers, Have Fine Meeting

First Meeting of Helpful Organization Was Well Attended.

A large number of parents, teachers and members of the local school board were in attendance at the first meeting of the Parent-Teacher association held at the grade school building on Monday night of this week, and a very enthusiastic and helpful, get-acquainted meeting was reported by those who attended.

Very fine talks were made by S. Boyer Nelson, the new president who was in the chair, Mr. Pollock, president of the grade school board, and Mrs. Warriner.

Nearly all school board members were present, which indicates that body is much interested and is heartily in sympathy with the program the P. T. A. will try to carry out this year.

A large number of parents were present to meet the new teaching staff. Mr. Petty the Principal was introduced and in his talk was that cordial greeting that means so much to teachers and parents, each teacher as he they were introduced spoke a few words of welcome to the parents.

After a short business session the meeting was adjourned for refreshments served by a committee composed of Mrs. Mapleshorpe, Mrs. Summwall and Mrs. Frank Duun.

It is evident by the enthusiasm displayed at this the first meeting that this year will be the most prosperous year that the P. T. A. has ever had.

Antioch Hotel Is Being Remodeled

Antioch Syndicate Leases Popular Hostelry to Wisconsin Couple.

The Antioch Hotel, which was purchased recently by a syndicate of Antioch men, has been leased to Mr. and Mrs. Frank McManus, of Kansasville, Wis. Mr. and Mrs. McManus have a wide experience in the hotel business. They formerly conducted the Cunningham hotel at Brown's Lake.

Preparatory to reopening the hotel, which has been closed for the past several weeks, the entire building will be redecorated and extensive remodeling of parts of the building is now under way. The entire first floor is to be given over to the hotel office and dining room. The office will have an open stairway and a gentlemen's wash room will be built in connection with the office. The main dining room is to be enlarged and smaller dining rooms will be arranged for private parties, and accommodation of dinner parties will be a specialty, it is announced.

When completed the hotel will be strictly first-class and modern in every particular. The place will also have a change of name, being known in the future as the "Blue Willow Inn."

THIEVES TAKE NIXON TRUCK IN CHICAGO

John Nixon was the victim of auto bandits this morning in Chicago when thieves made a getaway with his truck and stock of provisions which he had just loaded and was starting for home. It was learned when Mr. Nixon telephoned the Antioch Cash and Carry grocery about ten o'clock. The theft occurred on Randolph street, where Mr. Nixon had stopped to make a purchase, leaving the loaded truck unattended. When he returned less than five minutes afterwards the truck had disappeared. No further particulars were learned except that the truck was loaded with about \$500 worth of provisions for the Nixon store, including paints and supplies for the new candy store which is to be opened soon next door to the Cash and Carry grocery.

LUTHERANS CELEBRATE
SIXTIETH ANNIVERSARY

The Congregation of Evangelical Lutheran Church at Wilmet celebrated the sixtieth anniversary of the organization of a Lutheran church here last Sunday. There were three services during the day and evening, conducted by visiting pastors: Rev. A. C. Hendler, of Milwaukee; Rev. T. Volkert, of Racine; Rev. H. K. Moussa, of Fon du lac. Aside from the members of the congregation who attended the pastors their families and members of the congregations from the following towns were present: Lake Geneva, Elkhorn, Burlington, Bristol, Kenosha, Racine and Slades Corners.

The services were all exceptionally well attended and the affair was successful in every way. The meals served by the Ladies of the Lutheran Congregation were well patronized and the Ladies were well satisfied with the results of their hard work.

The final division of the Carey Electric plant territory between the Southern Wisconsin and The Wisconsin Gas was completed September twenty eighth. Arthur Holdorf has been retained as manager for the Wisconsin Gas and Irving Carey for the Southern Wisconsin.

U. F. H. SCHOOL NOTES

The first number of the Lyceum Course will be given in the gymnasium Saturday, October ninth by the Larcher Duo.

The second P. T. A. meeting of the year will be held on Tuesday, October twelfth. A very interesting program is being arranged. If present arrangements are carried out, a mock trial will be held by a group of people from Kenosha. The girl's glee club under the direction of Miss Peterson will make its initial appearance of the year, and the high school orchestra will play several selections.

The Cavaliers, newly organized society of boys, will hold a regular meeting Thursday evening at seven-twenty. The following program will be given: My Opinion of Bolshet Hair—Kermit Schreck; Current Events—Willie Elogal; Life of Wendell Phillips—Lawrence Stensel; Oration—Earl Blood; A Joke by each member—Plans will be made at this meeting for the election and initiation of new members.

A girls' society rivaling the youthful Cavaliers is also being organized and promises to offer stiff opposition to the Cavaliers. Miss Francis is acting as sponsor to the Girls.

THIRTY ENJOY ANNUAL PARTY
AT LAKE CATHERINE

(Contributed by one of the guests)

The ruthless years which play such havoc with old friends and old associations have made little change in a group of young people who spent the week end at cottages of D. D. Campbell at Lake Catherine.

This group of friends has gathered together each year at this season for a matter of fifteen years, and individually or collectively, Father Time has been able to do little with them. The same people come every year—almost is anyone missing, and each is apparently as young and certainly as happy as when they first met.

This rare group meets at the invitation of Mr. Campbell's daughters, Mrs. Maude Puertel and Miss Anna E. Campbell. They arrive by motor from Chicago, Berwyn, Oak Park, Riverside and LaGrange on Saturday afternoon and spend a long and merry Saturday evening at the cottages at cards and other impromptu diversions.

After a brief rest (as these parties at the lake come only once a year there is little time to waste in sleeping) comes Sunday with boating, bathing and the noble old game of horseshoes, better known as "Barnyard Golf."

A very delicious home cooked chicken dinner was served Sunday to the party at "Merry Glenn" on Lake Marie, the remaining meals at the cottages, and not during the whole year does food taste so good. The weather, too, helped to make this year's party as enjoyable as its many predecessors, or more so.

All the members of this group of friends, there being about thirty this year, will be interested to see how long these annual parties can continue with unbroken ranks and undiminished enthusiasm.

GOOD PROGRESS ON

ROAD WORK

After numerous delays, spreading over a period of weeks, months and even years, work has commenced on the completion of State Highway Route 20 and is being carried on in real earnest. After much litigation, which the people of McHenry will be happy to forget, bids were received on May 5 and the contract was let work being commenced a few weeks ago.—McHenry Plaindealer.

LONG DISTANCE
TELEPHONE SERVICE
CHANGES

Between all points, in Illinois and elsewhere, reached through Illinois Bell Telephone Company
Effective 12:01 A. M., October 1, 1926

Reductions in Long Distance Rates

To points 150 miles or more distant the rates have been substantially reduced. The greater the distance, the greater the reduction. Certain rates for distances between 24 and 110 miles have been adjusted to make the schedule consistent throughout, but in no case has the basic Station-to-Station rate been raised more than five cents.

Reversed Charges on Station-to-Station Calls

Heretofore the reversal of charges has been available only on person-to-person calls. As a further convenience to the public this privilege is now extended to Station-to-Station calls where the rate is 25 cents or more.

Longer Reduced Rate Period on Station-to-Station Calls

Reduced rate hours for Station-to-Station calls now begin at 7 P. M. instead of 8:30 P. M., as formerly. Between 7 and 8:30 P. M. the discount is approximately 25 per cent. of the day station-to-station rates; from 8:30 P. M. to 4:30 A. M. the discount is about 50 per cent. of the day rates. These discounts apply where the May station-to-station rate is 40 cents or more, with a minimum reduced rate of 35 cents. Because of the unsatisfactory service conditions which it brought about, the midnight discount has been discontinued.

GOOD YEAR FOR DUCKS, SAY PEORIA MAN

"Poor Man's year" describes the 1926 duck shooting prospects in the opinion of Hon. Robert Scholes, of Peoria, State President of the Izaak Walton League and Speaker of the House of Representatives in the 54th Assembly.

While expressing the deepest sympathy for the many farmers whose crops have been destroyed by recent floods, Speaker Scholes explained why thousands of hunters, men of ordinary means will enjoy duck shooting for the first time in several years.

Thousands of acres of corn fields along the Mississippi, Illinois, Sangamon and other rivers are now covered with water varying in depth from one to ten feet or more. It is doubtful if much of this corn will mature sufficiently to make even duck feed. But in every cornfield, there is an abundance of smartweed and other natural food.

The ducks will scatter out over these flooded fields and almost any god hunter will be able to get enough ducks to make it worth while. This year's shooting at the baited holes in the duck clubs and commercialized holes is problematical. If the water goes down rapidly and stays down, it may be good.

The situation this year is quite similar to conditions that would exist if the state owned large acreages of land for public shooting grounds, with the steady growth in the number of duck clubs and commercialized shooting places, the ordinary man has no place to shoot ducks. Four hundred of these clubs were licensed last year. The acreage owned varies with each club, but several own over 2,000 acres and one has about 5,000 acres.

Sportsmen must put forth a concerted effort at the next session of the General Assembly to get further appropriations to complete the program started in 1925, to buy and save for the people the land that is left. Unless this is done in the immediate future, there will be no hunting ground except for club members.

DOES IT PAY?

Does advertising pay? Well, listen to this: Advertising has made the Victrola dog famous. It has put Castoria down your throat, left bristles in your gums, and then came along with Rubberset and took them out. It has put Gillette against your haystack. It has put Marline in your eyes, sold you Cuticura for your pimples, pears for the bath and Ivory for the tub. It has put Arrow collars around your neck and Ingersoll around your wrist. It has jammed your foot in Holeproof socks, put Paris garters on your legs and Tifany rings on your fingers. It has even worn out your jaw on Wrigleys and posted you on what to buy to care for bunions and ingrowing toenails. Go anywhere you want to, do any thing you wish, and advertising has a hand in it—absolutely. And then some people ask: "Does advertising pay?"

Doctor Operates in 60-Mile Gale at Sea

New York.—With three men holding the operating table to steady it, and Captain Volberg keeping the Scandinavian liner United States headed into a 60-mile gale, Dr. Knud Biering, ship's surgeon, successfully removed the appendix from John E. C. Andersen, dancer of the Royal Danish Ballet.

The United States was off the Grand banks, heading for Halifax, Andersen was landed at Halifax.

On arrival here Captain Volberg received a radiogram from the hospital at Halifax announcing Andersen was expected to recover and that the operation appeared to have been performed just in time.

TELLS OF MURDER WHILE ETHERIZED

Hospital Patient Talks Coming Out of Anesthetic.

Atlanta, Ga.—Babbling out the secrets of a murder which had long puzzled authorities of Fayette county, Georgia, a woman who was under an anesthetic for an operation implicated her own father in the crime.

The hospital patient whose uneasy mind forced incriminating words from her lips while she was unconscious is Mrs. Edna Samuels. She was a patient in a hospital here when she let slip her secret.

Then consciousness came and Mrs. Samuels found the sheriff by her bedside. Then she told almost all she knew about the killing of James Langston, a rural letter carrier of Fayetteville, Ga., whose lifeless body, the head shattered by blows from a heavy instrument, was found near his abandoned machine.

Events moved swiftly after the sheriff's conversation with Mrs. Samuels. The jealous wife of another suspect was questioned, and the alleged tender of the moonshine band which had planned the murder broke down and confessed.

It appears that Langston, a law-abiding churchman, had run afoul of the bootleggers by discovering tangible evidence of the existence and location of their stills. He told the authorities.

Enraged, the distillers determined to close his mouth permanently. John Walter, father of Mrs. Samuels, plotted the crime.

The upshot of Mrs. Samuels' revelations while she was coming out of the ether has been drastic. Eight men tried for the murder—eight men convicted and sentenced to life imprisonment.

Youth Solves Mystery of Aged Man's Death

Los Angeles, Calif.—A boy fifteen years old has solved the mysterious slaying of M. P. Virgil, ninety-one-year-old hermit, who disappeared from his little cabin in Tulare county, Calif., almost a year ago. The boy is Michael Smith. Through evidence which he uncovered police have arrested Francisco Macias, Mexican rancher. He is accused of murdering the aged man and will be tried soon.

Michael had an idea that Macias killed the hermit to get a fortune the aged man was supposed to have hidden in his cabin. He had a conference with the district attorney and was told to see what he could learn about the case. The boy detective got acquainted with Ben, the young son of the Mexican rancher. The boys began searching for a buried treasure, Michael telling Ben that he was the only person who knew where it was hidden. While the boys worked together they talked—until Ben told how he had seen his father bury the body of the aged hermit in a well on his ranch.

The authorities arrested the Mexican and recovered the body. The prisoner denied killing the aged man, but after many hours of questioning said he had slain him during a quarrel and in self-defense. Later the suspect said the hermit died of typhoid fever and that he had buried the body to prevent contagion. County authorities, however, believe the Mexican killed the hermit as he slept in his cabin.

Leaps to Engine That Crashes Into Truck

Philadelphia. — Harold Burgess, eighteen years old, Camden, probably saved his own life by climbing from an automobile truck, which he had been driving, to the cowcatcher of a shifting engine on the Pennsylvania railroad after the engine had crashed into the machine.

His feat was performed while the engine dragged the automobile truck about 125 feet before it came to a stop. Burgess was rushed to the hospital, where it was found he suffered only nervous shock.

Voice and Hearing Restored by Fright

Lawrence, Mass.—Frightened by a policeman's flashlight, George Gibbs, deaf and dumb for nine years since he was wounded in the World war, is talking and hearing again. "You fool," shouted Gibbs as the flashlight was turned into his face while he slept in an empty house on Auburn street. They were the first words he had uttered since a bullet pierced his cheek in 1917 while he fought with the Princess Pat regiment of Canada in France.

Bristol News

Bristol village was privileged to have three church weddings in the month of September, the first was held in the Lutheran church. The other two in the English M. E. church. The last one was the marriage of Miss Amy Hansen, daughter of Mr. and Mrs. Peter Hansen, Jr., to Frank Newman Jr., son of Mr. and Mrs. Frank Newman. The ceremony was performed at noon by Rev. Joseph A. Steen present pastor at Union Grove, before many friends. The bride wore blue georgette crepe over satin and white colored picture hat and carried a bridal bouquet of pink roses. She was presented at the altar by her father. Her sister-in-law, Mrs. Alfred Hansen, was maid of honor and wore rust satin with same colored picture hat. Alfred Hansen, from Pewaukee, brother of the bride acted as best man. Mrs. W. Landree sang "I love you truly," preceding the ceremony. Mrs. Genevieve Bryant was pianist and played Lohengrin's wedding march. A sumptuous wedding dinner was served at the home of the bride's parents, on the Wilmet road, to about fifty guests. Mr. and Mrs. Newman left for a motor trip through northern Wisconsin. They will make their future home in this vicinity.

ST. IGNATIUS' CHURCH NOTES

Epiacopal
Next Sunday will be the 19th, after Trinity. The Rev. Fr. Edward J. Cooper, of Christ Church Cathedral, will be the guest of the Parish next week. There will be a celebration of the Holy Communion at 7:30 and Holy Eucharist at 10:30. Fr. Cooper is one of the most noted of the missionary Priests of the Church because of the splendid work that he has given to the Church at Christ Church Cathedral. Sunday the 21st, of November Bishop Anderson will pay his Pastoral visit and confirm the candidates from the Parish. There will be a special service of rededication, the details of which will be announced later. The 10:30 sermon time will give place to a series of addresses on the Church, its history, doctrine, hope, and practice. The text book will be "The Practice of Religion," by the Rev. Campbell Knowles. This little book is most complete in every way and will be used by adults and children alike. They may be procured from Mr. Dixon, or after service on the pamphlet table at the rear of the Church. The cost is only 75c. The Confirmation lectures for the children will begin Monday, Oct. 11th, at 4:15 sharp in the Parish House.

The new bulletin board in front of the Church is the gift of Mrs. John Scambler, a summer friend of the Parish.

BROADCASTERS URGED TO KEEP ORDER IN AIR

To Prevent Chaos, Harbord Urges Broadcasters Support Department of Commerce Radio Policies.

New York.—In connection with the opinion of Attorney General Sargent holding that the Department of Commerce is without legal authority to control the radio, General James G. Harbord, president of the Radio Corporation of America, issued a statement in which he characterized the opinion handed down as "unfortunate."

His statement follows: "The decision of Attorney General Sargent with regard to the authority of the Department of Commerce to regulate radio broadcasting stations is unfortunate, in our sense, but perhaps endurable if it may serve to impress our legislators with the great need for sound radio legislation. The radio industry has 'knocked at the door of Congress through the Department of Commerce for constructive radio legislation for considerable time."

Will Back Commerce Policies
Failure of the Congress in the past to enact suitable laws has been met by representatives of the radio industry in meeting in four annual conferences with the Secretary of Commerce and informally agreeing among themselves to a temporary plan of wavelength allocation, station power rating, hours of operation and other pertinent considerations. I haven't the slightest doubt that the fair and responsible men who have met at these conferences at Washington will continue to stand behind the splendid emergency program which they and the Department of Commerce conceived and agreed upon.

"The Radio Corporation of America will steadfastly maintain its policy of strictly observing the present wavelength assignments and it is believed that all broadcasters who are interested in furnishing the radio public with satisfactory service will do the same."

Chaos in the Air a Possibility
"We should not overlook the fact that we are all striving to serve millions of radio listeners. To arbitrarily appropriate the wavelength of one's broadcasting neighbor will result in interference and chaos in the air, rendering reception by the listener unsatisfactory and perhaps precipitate a situation where the listener will find great difficulty in his efforts to separate programs at the receiving end. While this may not come to pass, nevertheless, the possibility of such a condition should serve to impress upon the American public the vital need of radio laws and regulations."

"Meanwhile, the industry should not take Attorney General's decision as a signal to depart from the accepted and efficient arrangements of the present. Responsible broadcasting interests will not, I am sure."

Come Try 7-Bearing Motor Performance It Offers Amazing Power-Smoothness

Here's a new Nash Advanced Six model that's scoring a tremendous success.

Richly furnished, luxuriously appointed, and with a wealth of new engineering features, this 4-Door Sedan is easily the most notable car ever offered at the price.

AND—it's powered with the newly-refined 7-bearing crankshaft motor Nash has developed—the world's smoothest type.

Never have you known such rare power-smoothness—soft, silken, utterly vibrationless power-flow that has no equal in this field.

A ride will PROVE that—CONVINCINGLY.

And it has a long list of added new attractions that rank this 4-Door Sedan right along with cars selling far above it in price. Come in today and see this NEW model.

Boy's Shoes

for school wear that are made of the strongest upper leather and first grade Oak bend soles are cheaper in the long run, for a shoe that is made to sell at a low price is made up from leather substitutes, or poor grade leather, and will not stand the hard wear that the average boy will give them.

Our shoes are high quality; which means longer wear, altho we are compelled to carry a few numbers of shoes to satisfy a few people that unthoughtedly ask for shoes having price as their first thought.

Our prices on shoes, considering quality of materials, are lower than you can buy them any where else. We would like for you to give them a trial. We are sure you will be satisfied.

THE BIG SHOW

"The most vivid picture of circus life ever filmed" is the verdict of those who have seen "Bigger than Barnum's," F. B. O.'s powerful drama of the sawdust ring, shown at the Crystal Theatre, Sunday, Oct. 10th. With an unexcelled cast headed by Ralph Lewis, Viola Dana, George O'Hara and Ralph Ince, and a thrilling story by Arthur Guy Empey as the basis of the film, the lure of the circus. Don't miss this big picture Sunday evening at the Crystal.

HUNTER SHOT AT GRASS LAKE

Promiscuous Shooting in Fog on Opening Day at Grass Lake.

Rain, fog and absence of ducks failed to halt the army of hunters in this vicinity of Grass Lake last Friday morning, the opening day of the season, and many hunters were pelted with shot during the morning shooting in the fog, although only one was injured, a Chicago man who was said to have been badly shot on the side of the face.

Mudhens were plentiful, according to reports. A number of deputy game wardens were on the job to see that the sunrise shooting rule was not violated and to make sure that the hunters kept within the 15 bay limit.

Authorities seem to differ as to whether this will be a good year for ducks.

HAPPILY WEDDED

At a quiet home wedding Miss Augusta Hucker became the bride of Arthur Haley Jr., Saturday evening at 8 o'clock at the home of the bride's mother, Mrs. Viola S. Mooney.

Mrs. Elmer Reutner was matron of honor and Elmer Reutner was best man.

The bride wore a dress of light grey georgette trimmed with rose cut work. She carried a shower bouquet of pink rosebuds and valley lilies. The matron of honor was dressed in dark rose satin trimmed with velvet of the same color.

The Rev. E. Lester Stanton performed the wedding services.

Following the ceremony a supper to the immediate family and relatives was served.

Among the out-of-town guests were Mrs. Arthur Haley Sr., Thomas Mooney, Norman Thompson and Anita Hucker, all of Chicago and Lilan E. Kemp of LaPayette, Ind. Mr. and Mrs. Haley left Monday for California where they will make their future home.

THREE INJURED IN AUTO CRASH AT LAKE VILLA

One woman was seriously injured and another woman and a young girl were slightly injured, late Thursday afternoon, when the machine in which they and two men were riding, skidded off the road, turned over twice and finally came to a stop upside down in the ditch. The accident occurred opposite Lyman's Place at Sand Lake, near Lake Villa.

All three of the injured were taken to the Victory Memorial hospital, Waukegan.

Mrs. Veronica Bonanska, 1429 Argyle street, Chicago, was the most seriously injured. She suffered four fractured ribs, and a deep scalp wound. She also received bruises on the face, arms and head.

The other two injured were Mrs. Pauline Sokolowski, 1646 Julian street, Chicago, and Miss Virginia Aluza, 8 years old; 1645 Julian street, Chicago.

Dr. and Mrs. Williams, Mrs. D. A. Williams and Miss Ruth, returned from their trip to Minneapolis on Monday and report a most enjoyable time. They drove by way of the Dells thro the "Mountains" of Wisconsin to LaCrosse. Then on the Scenic Highway west of the Mississippi River. They were royally entertained at the home of Mr. and Mrs. M. R. Waters, Mrs. Waters is an aunt of Mrs. Frances Williams. Mr. Waters is of the firm of M. R. Waters and sons Inc., agents for the Union Central Insurance Co., for the Northwest.

Dean Wisner and wife drove into the city from their home in Morris, Minn., to meet the Williams family. On Saturday they all attended the N. Dak., and Minn. football game. Mr. Wisner's brother, Harry Wisner has been in business in Minneapolis, for a number of years. The Wisner's helped to show the Williams' party a pleasant time. Dr. Williams drove home by way of Withee, Wisconsin and they called on the family of Saimmunson where they received a hearty welcome and greatly regretted not being able to make a much longer visit with them. The many warm friends of the Munson family who read the Antioch News will be glad to know they are all well, altho Sam said, it had rained forty days and nights and showed no signs of quitting.

But as Wisconsin roads never mind the weather one can never make a mistake by touring in that beautiful state.

The Royal Neighbors of Lake Villa, will hold their meetings the second and last Tuesday afternoon of each month as formerly. All those who would like to go to the County Convention at Deerfield should be at our next meeting Oct. 12th, in order to make reservation for meals at this meetings which will be an all day session.

C. F. Clark, Lake Villa, Ill., will have a sale of his register Holsteins on Nov. 4. This is a high class herd of cattle and anyone wanting foundation stock should attend this sale.

OUR PANAMA CANAL LEADING BRITISH DITCH AT SUEZ IN TRAFFIC TONNAGE

U.S. TRANSPORT "NORTHERN PACIFIC" PASSING THROUGH THE PANAMA CANAL

GATUN LOCKS

Increase of Freight via Panama Route, Largely Due to Oil Shipments, Indicates Rise of United States to Leadership of World's Commerce.

U.S.S. PENNSYLVANIA AT CHAGRES RIVER CROSSING

By JUDSON C. WELLIVER

One of the striking evidences of America's rapid rise toward commercial and industrial leadership of the world, is the Panama Canal, which will almost certainly handle more freight in 1926 than will Suez. For several years the two canals have been in a neck and neck competition whose implications are the more interesting because the Panama ditch is owned by the American Government, and that at Suez by the British Government.

Of course both Canals are open to the ships of all nations; and the competition between them is not only between the United States and Britain, but in a larger and even more significant view it is competition between old world and new world.

When the Panama Canal was opened in 1915, Suez was already transiting about 25,000,000 tons of freight annually. Almost nobody believed Panama could ever attract anything approaching such a volume. But during the war fear of German submarines in the Mediterranean caused many vessels to take the Panama route between the far east and European or American ports. This gave Panama its introduction and it has not only held but greatly increased its business since the war. In 1923 Panama transited 5037 vessels, against 4521 for Suez; Panama handled 25,160,000 cargo tons against 22,770,000 for Suez. This was the first year of Panama's lead.

A Close Race

The following year Suez barely exceeded Panama's tonnage; and in 1925 comfortably held its lead. But reports for 1926 to date indicate that Suez is losing, owing to Britain's industrial depression, while Panama is doing better and is pretty certain to resume the lead.

The present Suez Canal has been in operation nearly sixty years, Panama only eleven. Although few people except antiquarians know it, the first canal at Suez was built more than 3,000 years ago. It was in operation as early as B. C. 1380; how long before, is mere conjecture. Before the Christian era began the ditch had been built, destroyed, rebuilt, silted up and built up again, time after time. When Alexander the Great conquered Egypt the Canal was one of the oldest of engineering works.

Between 1904 and 1915 the present Panama Canal was constructed. It cost about \$400,000,000. Suez about one-fourth that sum. But Suez is a simple, sea-level ditch across a sandy plain; while Panama is a lock canal, the greater part of its length lying 85 feet above sea level, so that most of the distance from ocean to ocean is through an artificial freshwater lake.

Early Profits Unexpected

When Roosevelt started building at Panama, neither he nor any other prophet of optimism would have dared suggest that within its first decade the Canal would earn a profit. Its chief justification concerned the national defense, and the establishment of competition with the transcontinental railroads.

Although both Canals are open to shipping of all nations, British vessels constitute the majority of those using Suez (55.8 per cent), while American vessels are 54.5 per cent of those using Panama.

For 1924, ships of 21 nations used

the Suez route, while 24 nations were represented in the maritime caravan at Panama.

The World War was not the only unexpected factor in bringing Panama so quickly to equality with Suez, nor the most important. The enormous increase in Panama traffic in 1923 was represented almost entirely by petroleum and its products, moving from California to the east coast and Europe. In the year ended June 30, 1924, tolls aggregating \$24,290,000 were collected, of which \$9,071,000 was from tankers carrying petroleum. An even more striking statement of the matter is that for the same year exactly 50 per cent of all tonnage through the Canal was between the two ocean fronts of the United States; that is, 13,500,000 tons; and of this, considerably over 9,000,000 tons, or more than two-thirds was petroleum. It was of course chiefly from California, en route to eastern refineries. In the succeeding year this petroleum movement fell off heavily; but for 1926 it is again increasing and the increase is likely to continue for many years. But for the petroleum traffic, the Canal would have shown a deficit in every year of its operation.

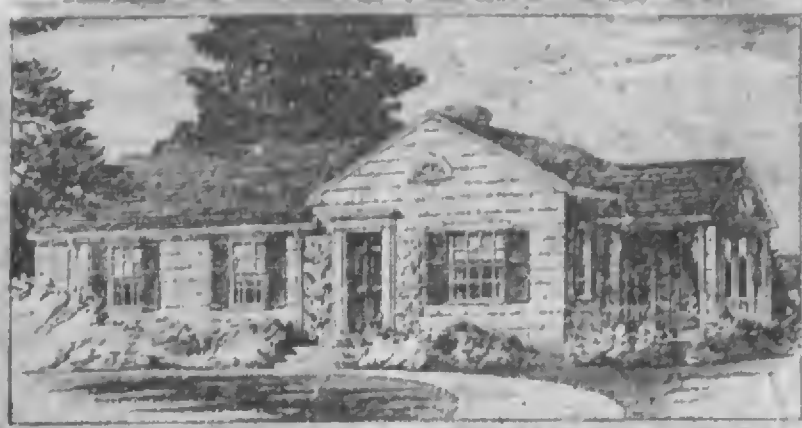

The enormous petroleum business has been in other ways advantageous to Panama. A constantly increasing proportion of maritime shipping nowadays uses oil fuel. Oil-burning ships seek routes on which they can most cheaply buy oil; and because California oil can be put so cheaply into the bunkers of vessels passing through the Panama ditch, there is a substantial inducement to prefer this route. This will increasingly favor Panama and militate against Suez, as the number of oil burners increases. Moreover, Panama's advantage will still further increase as the enormous oil resources of Venezuela, Colombia, and other South American countries are developed.

Great Service of Panama

If cheap petroleum has thus served Panama so well, Panama in turn has equally served the American motorist, who consumes most of the world's petroleum products. For Panama has brought the Pacific Coast petroleum to the eastern market at costs which, but for the Canal, would be vastly greater. Thus the Canal has given the United States the cheapest petroleum products in the world, and helped build the automobile industry and our modern highway system.

This mutually helpful relationship between the Canal and the petroleum users is the more impressive when one realizes that it was not even remotely anticipated at the time President Roosevelt started building the Canal. So late, indeed, as 1910, when Admiral Evans wrote his articles about the Canal and decided that it could not be profitable for several decades at least, he based all his calculations on the probable cost of coal for bunkering ships. He did not dream that merchant marines were on the verge of the revolutionary change from coal to oil. So he figured that, as there is practically no bunker coal in the countries bordering on the Pacific, that ocean could not compete, by way of Panama, for a greatly increased share of shipping. The oil development overturned the prophecies of Admiral Evans, and of all others who had foreseen that fuel problems would make Panama unprofitable.

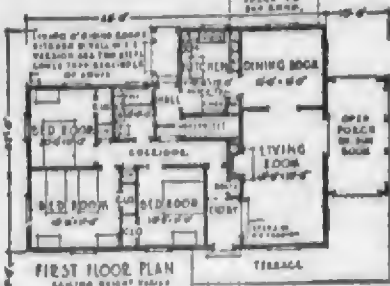

This Six-Room Bungalow Adapts Self to Any Lot

THERE is much to be said in favor of the one-story dwelling, and when the floor plan is as expertly arranged as in this Colonial bungalow the usual objections of lack of privacy and long distances to walk, are avoided. This house may run either lengthwise or across the width of the lot. The exterior is of stained grey shingles with either a green shingled or tiled roof. The trimmings should be white and the shutters green to harmonize with the roof.

The three bedrooms are well shut off from the rest of the house. The large open porch or sunroom can be made to open off either the living or dining room. The kitchen has the desired built-in features, including the useful breakfast nook.

The cost of this house can be materially reduced by omitting the basement and allowing space on the main floor for a small boiler room. The walls and roof also are sheathed with celotex to keep the temperature at comfort point the year round.

THE easily driven "RED TOP" steel drive post has made fence building possible at this season. With this post there are no post holes to dig, so it doesn't matter how hard or dry the ground may be. With the "RED TOP" One Man Driver you can drive 200 to 300 of these superior steel posts a day.

At the low prices we are quoting on "RED TOPS" and fence there's a double advantage in building new fences and repairing old ones now.

A good many farmers around here are doing the bulk of their fencing during the fall season—right now. When the spring rush of work comes on they will have that much less to do.

"RED TOPS" for Low Cost Temporary Fences

We've been selling lots of "RED TOPS" for temporary fences this season. They are easily driven and the wire quickly attached. They can be pulled and the fence moved with so little labor and in such a short time.

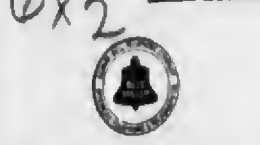

It is a pleasure for us to sell you "RED TOP" Posts. We know they will give you lasting satisfaction. They have been doing it in this community for years.

Come in right away and arrange for the posts and fence you will need to put your fence lines in tip-top shape this fall. We are always glad to help you get the biggest value going for every dollar you spend with us. "RED TOPS" are one of our best offers today.

FIRE PREVENTION WEEK

This week is "Fire Prevention Week." Oct 3 to Oct 9. The lesson to be learned this week is how to prevent fires. Fire is a preventable thing, yet through careless neglect of the most simple things, the loss by fire runs into millions of dollars each year.

Our part toward reducing this loss—a tax upon every pocketbook in the land—is to do our share toward elimination of fire hazards.

What we practice this week in the way of fire prevention should be our standard for each week in the year. We can reduce the fire loss in this community by one-half if we exercise care.

Behold The Criminal

Recently, so the story runs in the publication "Safeguard America Against Fire," while a forest fire raged about his house, a youth of Egg Harbor, New Jersey, sat in a rocking chair and played his ukulele, watching the blaze. Commanded by the Mayor to assist the fire fighters, the boy only laughed, observed that fire fighting was not his business, and kept on strumming his instrument. He was arrested and fined ten dollars for disorderly conduct.

Suppose, says the Insurance Field, he had been a merchant, manufacturer or tenant permitting trash accumulations and other fire hazards, capable at any moment of setting off a great conflagration in a city—how much disorder could he be accused of?

FORMER EDITOR AND PARTY RETURN FROM TRIP

Former editor, John L. Horan and family and Mr. and Mrs. Harry Osmond returned last Sunday afternoon after an extensive auto trip through the east, where they visited Pittsburgh, Philadelphia, Washington, New York and other points of interest. On their return trip they crossed over the border and visited many places of interest in Canada. Almost continuous rain marred the pleasure of the trip to some extent, but nevertheless, the former editor and party greatly enjoyed the 2500 mile drive in Mr. Horan's new Willys-Knight sedan.

Illinois Emerges From Mud; Now Is Banner State

Automobile Fees Have Financed Finest System of Highways.

Illinois has approximately 5,000 miles of paved highways. The construction of these roads was financed by the automobile owners of the state, who are paying in \$18,000,000 annually to meet interest charges and pay the principal on bond issues and for maintenance of the roads.

"Since 1917, when the plan for applying automobile fees to highway bond issues was worked out," Secretary of State Louis L. Emmerson says, "the state has lifted itself out of the mud. Instead of being one of the most backward states in road improvement as it was then, it is now recognized as one of the most advanced."

When we first began discussing this legislation we were collecting only a little over a million dollars a year in automobile fees and there was grave doubt as to whether or not the fees would take care of the interest and principal of the proposed \$90,000,000 bond issue in the twenty years allowed.

"Since that time we have collected more than \$22,000,000 in fees and not only are paying the interest and amortizing the indebtedness on the original bond issue but have assumed a \$10,000,000 bond issue."

"The automobilists of Illinois, without question, are getting more for their money than are the owners of motor vehicles in most other states. Every cent of the fees goes directly into the highway fund."

Mr. Emmerson points out, however, that the excellence of the hard roads increases the hazard of driving because a few reckless drivers use them as speed ways.

"The great majority of automobile owners are law abiding citizens and are careful drivers," he said. "It is unfair that a few reckless drivers should be permitted to menace lives and property on the hard roads of the state. Recklessness can be curbed only by punishing the reckless and constituting authorities everywhere should see that this is done."

No Girl Too Young to Teach, Nebraska Edict

Lincoln, Neb.—In Nebraska a girl is never too young to teach.

That is the dictum of the Supreme court in its ruling that Anne Joyce, fifteen, and Mrs. Darline Johnson, seventeen, are entitled to teachers' certificates from the department of public instruction.

The young women carried their case to the Supreme court after Superintendent Masteen of the department had declined to issue certificates because of their youth, although both were recognized as properly qualified in training.

Miss Joyce was fourteen when she applied for her certificate, after having been graduated from high school and completed two years' work at the state normal school.

Roast Pig and Dressing National Dish of Cuba

Havana, Cuba.—Cuba's national dish is roast pig.

The pig, 20 to 40 pounds on the hoof, is stuffed with a dressing made with a bread base, to which is added spices to suit the individual taste. It takes the place of honor on "Noche Buena" (Christmas eve) instead of the familiar American turkey on Christmas day.

The most popular dish is chicken and rice. The chicken is stewed and the rice steamed separately. They are combined with a few strips of a mild red pepper grown in Cuba and placed in an earthenware dish and baked. Sometimes eggs or saffron are added to the rice.

Yawn Locks Jaws

Beacon, N. Y.—Miss Josephine Smith yawned and something happened. Her jaws locked and for two hours her mouth remained wide open. Dr. George Jennings tried ordinary methods to make her shut her mouth, but finally sent her to a hospital, where she was given an anesthetic and her jaws closed by force. She suffered no permanent injury.
